NOTICE TO THE PUBLIC
NOTICE IS HEREBY GIVEN that pursuant to Sections 29-125, 9-6.4 and 9-6.6 of the Code of Virginia, the Commission of Game and Inland Fisheries has on November 12, 1958, adopted the following amended Regulations, copies of which have been filed with the Division of Statutory Research and Drafting.
Regulation 42. TROUT SEASON AND CREEL LIMIT: The State-wide open angling season for trout shall be from 12 o'clock noon, the third Saturday in April to one hour after sunset December 31, Eastern Standard Time, and from one hour before sunrise to one hour after sunset on intervening days. The daily creel limit shall be eight.
* * * * * * * *
Regulation 46. FISHING IN WATERS STOCKED WITH TROUT: It shall be unlawful to fish in waters, statewide, stocked with trout except during the open season for taking trout.

All seines, nets of more than 50 feet in length; any trout less than 6 inches in length; any trout, except those taken on a hand line, caught or killed illegally by

Regulation 51. SET POLES: It shall be unlawful to use trot lines or set poles, using hooks, gigs, spears, (dead or alive) for the purpose of taking non-game fish; provided, however, it shall be lawful to use trot lines in the Shenandoah River and its tributaries, and to fish with trout.

The above Regulations shall be effective December

Four big reasons why
FORD
IS OUTSELLING
ALL OTHER '59 CARS

AT THE BRUSSELS WORLD'S FAIR, the 59 Fords were awarded the Gold Medal for handsome new styling elegance by the Comité Français de l'Elégance.

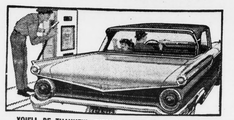
The world's best-selling car is the car with Thunderbird elegance

In the greatest styling decision in the history of the industry, the American public has once again shown a clear preference for the styling of Ford. Ford sales are way ahead of the nearest competition. Why? One reason is the classic simplicity of the Thunderbird-inspired design—clean, crisp lines that are *pure automobile!* And Ford is built for people—to sit in, to drive, to ride in—with comfort.

ANYONE CAN FIT IN A FORD: Our cars are built for people—*full-size* people who want space to stretch out. And *all* passengers ride in deep-cushion comfort.

The car in hottest demand across the land has plenty of roominess and comfort

Thousands of customers have been waiting for the new Ford over all competition—another compelling reason—to buy a Ford six-passenger car. (The only six-passenger car we recommend is the Thunderbird!) All six Ford passengers get plenty of every kind of room—room from leg and head to elbow and shoulder. Rear seat passengers don't feel cramped because they're riding with their feet flat on the floor.



YOU'LL BE THANKFUL EVERY TANKFUL if you buy the new Ford, for you'll save up to a dollar a tankful with new engines that run superbly on *regular gas.*

The No. 1 car in sales saves money on gas, oil, on maintenance bills

A new Ford will save you up to a dollar a gallon on gas. That's because the Ford standard engines—Six or Thunderbird V-8—thrive on regular gas. And Ford saves on oil, too, with a Full-Flow Oil Filter as standard equipment. Change it 4000 miles between oil changes—and you can forget about waxing your car. Ford's Diamond Lustre Finish stays gleaming bright without waxing—

THE FAMOUS FORD LOW PRICES have already made a hit, because only in Fords will you find value and beauty coming together at down-to-earth prices!

The most popular American car is priced as much as $102.75 lower

Ford costs you less right down the line than the competition. Compare the price tags and you'll see that the Ford Fairlane's suggested retail price, fully equipped with radio, heater and Ford-O-Matic transmission, is as much as $162.75 less than the most comparable competitor! And on an economy-size car, you can save up to $83.25 when you compare one Fang or a 223 Falcon

FIFTIETH ANNIVERSARY

Mr. and Mrs. A. H. Garrett are celebrating their 50th wedding anniversary on November 25th.

Mrs. Garrett was the former Miss Lona Louise Martin, daughter of Mr. and Mrs. J. L. Martin, of Appomattox, Va.

Mr. Garrett is the son of Mr. and Mrs. J. W. Garrett, of Farmville.

They were married at Concord, Va. on Nov. 25, 1908, at the home of her parents. Mr. Garrett at that time was Supt. of Va. - Carolina Chemical Co., of Charlotte, N. C. The Company transferred him to Charleston, S. C., as Gen. Supt. of several factories. Later he moved to Jacksonville, Fla., where he has retired.

They have three sons, one daughter and 14 grandchildren and two great grandchildren.

RED CROSS BLOODMOBILE RECEIVES 95 PINTS FROM VISIT HERE

A total of 95 pints of blood were received last Friday at the visit of the Red Cross Bloodmobile to Appomattox. This was considered a fine showing, and but for rejections, the total would have been over 100.

The Bloodmobile committee wishes to thank all those who contributed in any way to the success of the visit. The committee listed the following as prize winners: First prize, $10 savings account, to William Hix, Pamplin; second prize, a $10 savings account, to Nathanie' Ferguson, Appomattox; third prize, anti-freeze, to Mrs. Minerva W. Torrence, Appomattox; fourth prize, gasoline, to E. N. Harvey, Evergreen! fifth prize, and sixth prizes, theatre admissions, to Mrs. Eileen LeGrand, Appomattox and Mrs. Laura Henry, Spout Spring.

OAKVILLE FIRE ALARM

The Appomattox County Volunteer Firemen were called out last Wednesday afternoon to answer an alarm from Oakville. A chimney fire occasioned the alarm.

Subscription rate: $2.00 a year; payable in advance.

POSTMASTER GIVES TIPS FOR CHRISTMAS MAILING

Acting Postmaster Richard Wingfield said today, "Christmas may seem quite a way off, but nevertheless, we're starting our annual 'Mail Early For Christmas' campaign immediately, because there's every indication that the 1958 Christmas season will set an all-time mailing record."

The postmaster said further that right now is the time to plan your Christmas card and gift mailings. The first thing to do is to check your Christmas card list very carefully — make sure that each address includes full name, street and number, city, zone and state.

He went on to say that by a little advance planning, a lot of headaches can be avoided when the Christmas rush is on. The postmaster suggests that you stock up now on heavy wrapping paper, sturdy corrugated cartons, strong cord, and paper adhesive tape, for use in securely packing and wrapping your Christmas gifts. Remember, also, that you can include your Christmas card or letter inside your gift package if you'll just add the appropriate First Class mail stamps to the postage for the package itself.

Postmaster Wingfield also suggests that patrons secure from the Post Office — Pamphlet No. 2, which gives full information about proper packaging and wrapping of parcels for mailing. When you call for the pamphlet, be sure to buy sufficient postage stamps for your cards and gifts.

The Post Office also has free labels which read, "All For Local Delivery" and "All For Out of Town Delivery," so that before you mail your Christmas cards you can sort them into two groups, with the addresses all facing one way, thus expediting delivery.

Be sure to use only First Class four cent, or seven cent Air Mail postage on your Christmas cards. All cards sent by First Class mail may include a personal handwritten message, whereas a signature only is authorized on cards that are mailed at the three cent, Third Class rate.

The Postmaster says it's especially important to include your return address on every Christmas card envelope. Besides being socially correct, this is a big help to both you and your friends in keeping your mailing list, up-to-date.

Through the fine cooperation of the public during recent years, Postmaster Wingfield reports that great progress has been made in getting the Christmas mails through on time.

Christmas cards and gifts for most distant points should be mailed first, preferably well before December 10, and those for nearby points should be mailed by December 15, or at least a week before Christmas.

"WINTERIZING" MACHINERY CALLS FOR THOROUGH CHECK

"Winterizing" machinery calls for more than just adding anti-freeze to the cooling system of cars, trucks, and tractors.

Easley S. Smith, assistant agricultural engineer at VPI, says it is time to add anti-freeze, but special attention should also be given to the entire cooling system, electrical system, tires and lubrication.

Operating engines only occasionally in cold weather is especially hard on them, and a few common sense rules of maintenance can assure easier starting and lower operating costs.

Smith says to drain and flush the cooling system and check it for leaks, and worn and cracked hoses. If sludge or rust is present, a chemical cleaner should be used in flushing. Repair all leaks, and replace hoses if necessary. Check pressure radiator caps for worn or broken gaskets and weak springs. Be sure the thermostat is working properly. The thermostat can be checked by removing the radiator cap, with the engine running immediately after starting with a cold engine. Look to see if the water is circulating. A good thermostat stops most of the circulation until the engine warms up. Remove any trash that might have collected in front of the radiator and between the cooling fins. Replace and properly adjust worn or damaged fan belts and blades.

After thoroughly checking the cooling system, add a good permanent type anti-freeze, and test it with a hydrometer periodically to see that it will give protection during the lowest likely temperature for your locality.

At low winter temperatures, a battery has much less available cranking power than at summer temperatures, even when fully charged. So keep your battery well-charged and check the battery water level frequently. Keep the water level above the top of the plates by adding distilled water whenever necessary. A partially charged battery may freeze during extremely cold weather, but a fully charged battery will withstand temperatures as low as minus 90° F.

Keep the battery terminals clean, and all electrical connections tight. For easier starting, clean and adjust or replace spark plugs and break points, and check and make needed adjustments to ignition timing.

It is always important to lubricate engines properly. Winter operation, especially occasional operation at low temperatures may cause accumulation of moisture on the inside of the engine. The moisture condenses to water which is harmful to the lubrication system. Because of this, the motor oil should be drained often during the winter months, and possibly a lighter winter grade oil should be used. Always follow the manufacturer's recommendations in choosing the correct oil for operation conditions and temperatures.

In winter weather, give tires special attention. You need traction, which requires a good tire tread and proper tire inflation. If you use water in tractor tires for extra traction you will also need an anti-freeze solution to protect them. About two pounds of calcium chloride for each gallon of water is a satisfactory anti-freeze for water in tires.

Remember that a little preventive care and maintenance may mean the difference between a frozen or damaged motor block and an engine that is ready to go when you need it.

Savings Gift Books

The Treasury has come to the aid of Santa Claus with gift books containing $2.50 or $5 worth of new red-white-and-blue 25-cent U. S. Savings Stamps, on sale at post offices. For $18.75 worth of the stamps you can get a $25 Series E. Savings Bond.

Why not give a Gift Subscription to The Home County Newspaper! Fifty-two issues for only $2.00.

From where I sit ... *by* Joe Marsh

Whitey
"Auto" Not Sell Now

Folks thought it was a big joke when Whitey Fisher—who owns a chicken farm up on Murphy Hill—bought an old taxicab.

"Bought it mainly to haul eggs," Whitey told me. "Take out the rear seat and there's as much room as a truck. Put it back, and I can take all the kids on the Hill to school.

"In warm weather," he continued, "I can slide back the roof and get sunshine. And when I go hunting, I'll wind up the glass partition and the dogs can't lick the back of my neck!"

From where I sit, things aren't always what they are at first glance. "More than meets the eye" is often true whether you're talking about Whitey's "cab," or a new neighbor down the street. Give things a chance to be proved ... give every man a chance to be heard. Sit down over a glass of beer or buttermilk and get to know each other. It's the American way ... a road of "tolerance" we all ought to ride on.

Joe Marsh

Copyright, 1958, United States Brewers Foundation

Evergreen

Mr. Gerald L. Holdren and Mr. A. A. LeGrand went fishing Sunday.

Mrs. H. C. Davis, Mr. and Mrs. Bernard Tolbert and Mrs. Gerald L. Holdren and children, Vicky, Virginia and Vivian motored to Farmville Sunday afternoon.

Mr. Gerald Holdren and friends from Roanoke went hunting Monday, Nov. 17.

Mrs. H. C. Davis kept Vivian Kaye, while Mr. and Mrs. Gerald Holdren took Vicky Lee and Virginia Dale to see Santa Claus and the parade in Lynchburg last evening.

Trout Season Opening Date Is Adopted by Commission

Virginia's trout season will open at noon on the third Saturday in April, according to a regulation adopted by the state Commission of Game and Inland Fisheries at its meeting November 12 in Richmond.

Opening date in 1959 will be April 18.

Commissioners who wanted to give working men a chance to participate in the first day of trout fishing made the proposal October 8 and educators, from trout counties who complained that the mid-week opening had resulted in school children abandoning classes en masse to go fishing backed the Saturday opening proposal at the October Commission meeting. Letters from sportsmen reaching the Commission prior to the November 12 meeting were nine-to-one in favor of the proposal.

Play safe — drive carefully.
